

MAHMOUD MOHAMED LOTFY

Healthcare Operations Director | Cath Lab & Medical Supply Chain

Alexandria, Egypt | Open to: Greater Cairo, Sharkia • +20 155 816 6440 • m.m.lotfy.88@gmail.com • linkedin.com/in/mmlotfy

PROFESSIONAL SUMMARY

Healthcare Operations Director with 15+ years of professional experience across healthcare operations, supply chain, procurement, financial management, and business improvement. Led the Cardiac Catheterization Unit at Al-Obour Hospital for over 3 years, managing 90–140 procedures per month (65–70 clinical cases per month; 399 cases in H1 2025; >1,000 cases over 3 years) with full P&L accountability and administrative oversight of approximately 45 personnel. Delivered +56.3% net profit growth (H1 2025 vs. H1 2024; +37.0% 3-year revenue CAGR) while absorbing more than 70% operational cost inflation. Achieved a record net profit of EGP 2,978,995 in H1 2025. Built and deployed four internal software systems totaling approximately 3,570 development hours with zero external software budget. Maintained zero supply-failure procedure cancellations across 30+ consecutive months. Experienced across 10+ sectors including telecom, enterprise software, education, events, media production, FMCG manufacturing, healthcare software, healthcare operations, e-commerce, and community development.

KEY ACHIEVEMENTS

- Grew unit net profitability by **+56.3%** year-over-year (H1 2025 vs. H1 2024)
- Achieved net profit of **EGP 2,978,995** in H1 2025
- Delivered revenue growth of **+65.5%** (H1 2025 vs. H1 2024)
- Scaled case volume by **+27.1%** (from 314 to 399 cases, H1 2025 vs. H1 2024) while raising average revenue per case by **+30.2%**
- Achieved **+50%** growth in Private category cases (high-value procedures, H1 2025 vs. H1 2024)
- Absorbed **more than 70%** operational cost inflation (unit expenditure +69.9% driven by +35% consumable inflation, **+27.1%** volume, and case complexity) while expanding profitability
- Generated **250% Return on Marketing Investment (ROMI)** on targeted physician referral campaigns
- Identified and quantified **EGP 2.5 million or more** in lost-revenue opportunities from waiting list backlogs and unutilized capacity
- Reduced outstanding balances by **20–30%** through restructured billing and SLA-based collection reviews
- Maintained **100% stock availability** across 3 consecutive fiscal years within fixed monthly budget
- Reduced emergency purchasing by **40–60%** through a procedure-linked demand forecasting model
- Achieved **zero supply disruptions and zero unplanned shutdowns across 30+ consecutive months**
- Contributed **approximately 20%** to overall hospital financial stability

Process Optimization, Analytics & Tech: Process & Workflow Optimization, Lean Operations, Continuous Improvement, KPI Development & Monitoring, Team Leadership & People Management, Cross-Functional Coordination, Operational Analytics & Dashboard Development, Custom Application Development (React, Rust, Advanced Excel)

PROFESSIONAL EXPERIENCE

Healthcare Operations & Supply Chain Lead | Cath Lab

Al-Obour Hospital — Zagazig, Egypt

January 2023 – April 2026

Led full operational, financial, and supply chain management of the Cardiac Catheterization Unit processing 90–140 procedures per month. Directly accountable for P&L performance, cross-functional team leadership, vendor management, and uninterrupted daily case execution. Provided administrative oversight for approximately 45 personnel including nursing, surgical nursing, technicians, and physicians.

- Directed daily operations across 90–140 procedures per month including scheduling, resource allocation, and staff deployment with **100% case readiness and zero critical delays**
- Led, prioritized, and performance-managed a cross-functional team of 5–10 staff through daily stand-ups and weekly reviews
- Provided administrative oversight for **approximately 45 personnel** as unit lead
- Bridged clinical priorities and administrative decisions by translating physician case requirements into procurement orders, staffing plans, and compliance actions same day
- Approved consumable selection for every case based on clinical protocol, patient profile, and quarterly budget targets
- Owned full unit P&L, prepared monthly financial reports, tracked costs against budget weekly, and presented revenue performance to hospital management
- Ran the complete revenue cycle end-to-end including case billing, insurance claim submission, payment follow-up, and settlement within defined SLAs
- Restructured the billing follow-up process and introduced weekly collection reviews, cutting outstanding balances by **20–30%**
- Held unit costs below budget every quarter through detailed expense tracking and early identification of cost overruns
- Achieved **+56.3%** year-over-year net profit growth despite **more than 70%** cost inflation
- Contributed **approximately 20%** to overall hospital financial stability
- Institutionalized strict governance reforms: restructured recovery room custody controls (capping unit stock to 12 patients) and introduced dedicated in-OR emergency supply carts to prevent leakage and eliminate OR interruptions
- Managed high-value medical consumables including stents, balloons, guide wires, and catheters while maintaining **100% stock availability** within monthly budget
- Built a procedure-linked demand forecasting model mapping monthly case schedules to consumable requirements, reducing emergency purchasing by **40–60%**
- Screened every procurement decision against three criteria before sign-off: unit cost versus benchmark, clinical suitability confirmed by lead physician, and regulatory compliance clearance
- Introduced quarterly vendor performance reviews covering delivery lead time, defect rate, and pricing compliance
- Maintained **zero supply disruptions and zero supply-failure procedure cancellations for 30+ consecutive months**
- Built the unit full management infrastructure from scratch including inventory module, billing tracker, SLA dashboard, and monthly performance report using Excel and Google Sheets with **zero software budget**
- Built and deployed four software systems totaling **approximately 3,570 development hours** (Cash Management, Inventory Management, Medical Reports, and Nursing KPI systems)
- Ran monthly process review cycles tracking KPIs across case volume, revenue per procedure, collection rate, and supply cost
- Scheduled monthly preventive maintenance for all Cath Lab equipment and held direct service contracts with 3 key vendors, keeping the lab at **100% readiness with zero unplanned shutdowns**
- Implemented a weekly 10-point readiness checklist and negotiated a **1 Hour MAX** emergency response SLA with the primary imaging equipment vendor

Accountant & Unit Coordinator | Cardiac Catheterization Unit

Al-Obour Hospital — Zagazig, Egypt

October 2019 – January 2023

Managed Cath Lab front-desk admissions, patient intake ticketing, billing, point-of-service cash collections, and unit treasury.
