

MAHMOUD MOHAMED LOTFY

Supply Chain Manager | End-to-End Supply Chain | Inventory Strategy & Supply Continuity

Alexandria, Egypt | Open to: Greater Cairo, Sharkia • +20 155 816 6440 • m.m.lotfy.88@gmail.com • linkedin.com/in/mmlotfy

PROFESSIONAL SUMMARY

End-to-End Supply Chain Manager with 15+ years of professional experience across healthcare supply chains, FMCG manufacturing, inventory strategy, demand planning, and vendor logistics. Designed and executed a procedure-linked supply replenishment model that reduced emergency purchasing by 40–60% while maintaining 100% stock availability across 3 consecutive fiscal years within fixed operational budgets. Maintained zero supply disruptions and zero supply-failure procedure cancellations across 30+ consecutive months in a high-complexity cardiac catheterization environment (90–140 procedures/month). Proven capability in managing multi-echelon inventory, lead-time volatility, safety stock formulas, and warehouse material flows. Successfully steered supply operations through severe macroeconomic disruptions (absorbing 70%+ cost inflation and currency devaluation) without stockouts. Background spans medical supply chain leadership (Al-Obour Hospital), FMCG factory warehousing (Verona Sweets), and client supply chain software support (ClinPrime).

KEY ACHIEVEMENTS

- Maintained **100% stock availability** for critical clinical consumables across **3 consecutive fiscal years** within fixed monthly operating budgets
- Reduced emergency purchasing by **40–60%** by introducing a procedure-linked supply replenishment model
- Achieved **zero supply disruptions** and **zero supply-failure procedure cancellations** across **30+ consecutive months** in a critical Cath Lab environment
- Orchestrated end-to-end supply chain for 90–140 monthly procedures (**399 audited cases** in H1 2025; **>1,000 cases** over 3 years) with **~100% operational readiness**
- Designed and deployed custom digital Inventory Management Application (~320 hours) with barcode tracking, batch-level visibility, and automated expiry alerts
- Successfully navigated severe macroeconomic volatility (official -38% EGP float and parallel market surges) with **zero stockouts** or service halts
- Maintained **100% equipment readiness** and operational uptime through vendor SLA integration and preventive maintenance schedules
- Negotiated a **1 Hour MAX** emergency response SLA with primary imaging equipment vendor to secure continuous facility readiness
- Established quarterly vendor performance reviews tracking delivery lead times, order fill rates, and defect rates (<1%)
- Formulated multi-tier safety stock and reorder point (ROP) guidelines, balancing working capital against critical clinical availability

SKILLS

- **End-to-End Supply Chain Management:** Supply Chain Management, Material Flow Optimization, Sales and Operations Planning (S&OP), Production Supply Management, Warehouse Logistics, Buffer Stock Strategy, Supply Continuity, Emergency Stock Mitigation, Distribution Management, Third-Party Logistics (3PL)
- **Inventory Optimization & Control:** Multi-Echelon Inventory Control, Safety Stock Calculation, Reorder Point (ROP) Planning, Days of Supply (DOS), Expiry Monitoring, FEFO Stock Rotation, Barcode Inventory Systems, Warehouse Management Systems (WMS), Reverse Logistics, Carrying Cost Control, Stockout Prevention
- **Supplier Logistics & Vendor Performance:** Vendor Relationship Management, Lead Time Optimization, Delivery Tracking, Cold-Chain and Clinical Consumables Logistics, Supplier SLA Governance, Vendor Performance Scorecards, Inbound Logistics
- **Supply Chain Analytics & Systems:** Custom Inventory Management Software, Advanced Microsoft Excel, Google Sheets, Operational Analytics, Demand-Supply Reconciliation, Material Requirements Planning (MRP), Risk Mitigation, Process Improvement

PROFESSIONAL EXPERIENCE

Healthcare Operations and Supply Chain Lead | Cath Lab

January 2023 – April 2026

Al-Obour Hospital - Zagazig, Egypt

Directed full end-to-end supply chain, material flow, and inventory operations for the Cardiac Catheterization Unit processing 90–140 complex procedures per month. Accountable for material availability, inventory turnover, supplier fulfillment, and clinical supply continuity.

- Orchestrated supply planning and material flow for high-value cardiovascular consumables (drug-eluting stents, balloon catheters, guide wires, introducer sheaths), maintaining **100% stock availability** under fixed operating budgets
- Built a procedure-linked demand and replenishment model mapping monthly scheduled case mixes to material consumption rates, slashing emergency purchasing by **40–60%**
- Designed and deployed a custom online Inventory Management Application over **~320 development hours**, featuring real-time stock balances, material movement logging, barcode scanning, and automated expiry tracking
- Established systematic safety stock levels and reorder points based on supplier lead-time variability and monthly procedure volumes, eliminating stockout risks
- Maintained **zero supply disruptions** and **zero supply-failure procedure cancellations** across **30+ consecutive months** in a life-critical surgical environment
- Spearheaded inventory governance reforms: restructured recovery room custody controls and implemented dedicated in-OR emergency supply carts, preventing stock shrinkage and eliminating intra-procedure delays
- Shielded supply continuity against macroeconomic shocks (official -38% EGP currency float and parallel market FX volatility) by adjusting order cycle timing, safety buffer calculations, and replacement-cost planning
- Enforced supplier fulfillment standards via quarterly vendor performance reviews evaluating on-time in-full (OTIF) delivery, lead-time variance, and quality compliance
- Integrated medical equipment logistics by managing preventive maintenance schedules and negotiating a **1 Hour MAX** emergency response SLA with key imaging vendor, ensuring 100% lab uptime
- Built the unit entire supply chain reporting system from scratch using Advanced Excel and Google Sheets with **zero external software budget**

Accountant & Unit Coordinator | Cardiac Catheterization Unit

October 2019 – January 2023

Al-Obour Hospital - Zagazig, Egypt

Managed Cath Lab front-desk admissions, patient intake ticketing, billing, point-of-service cash collections, and unit treasury. Coordinated consultant procedure scheduling and inter-departmental patient flow with CCU and Operating Theatres, auditing vendor invoices prior to promotion to Operations Lead.

Stores & Factory Manager

2016 – 2017

Verona Sweets Factory

- Managed factory warehouse, raw material stores, and finished goods inventory in an FMCG manufacturing environment
- Coordinated inbound raw material deliveries, controlled inventory staging, and optimized material supply to production lines to avoid manufacturing bottlenecks
- Implemented inventory control procedures, FIFO stock rotation, and wastage reduction measures across high-turnover food production materials

Customer Care Manager

September 2018 – July 2019

ClinPrime - Healthcare Software

- Managed client operations and support for **30+ hospital clients** using an integrated healthcare operations and supply software platform
- Optimized resolution workflows, reducing ticket resolution time from **48 hours to 24 hours** within 6 months

Data Processing Specialist — International Business Services

2015 – 2016

Customer Service Representative, ADSL Technical Support, Team Lead — ETISAL International / Etisalat

2011 – 2012

ADDITIONAL EXPERIENCE

- **Co-Founder and COO** — Share Events & Marketing Services (2013–2014)
- **Co-Founder** — TEDx Zagazig (2013–2014)
- **Organizer** — Cairo Derma International Conference (2012)
- **Organizer and PR Head** — Zagazig University Vascular Surgery Conference (2011)
- **Founder and CEO** — Share Human & Community Development (2017–2020)
- **Co-Founder** — Karmasha (2015–2016)
- **Founder and Creator** — Frobe (2022–2023)
- **Head of Public Relations** — SIFE Organization (Enactus)
- **Media Production Professional** — Freelance (2014–2019)

EDUCATION

B.Sc. Commerce — Accounting | Zagazig University, Egypt

May 2010

LANGUAGES

Arabic: Native / Full Professional Proficiency

English: Full Professional Proficiency (reading, writing, reporting)

TOOLS AND TECHNOLOGIES

Advanced Microsoft Excel | Google Sheets | Custom Inventory Management Application (Barcode & Expiry Tracking) | Visual Studio Code
Applied to build supply chain tracking systems, inventory depletion models, vendor SLA dashboards, and custom inventory software.

PROFESSIONAL DEVELOPMENT

- Self-Study in Medical Supply Chain Strategy, Healthcare Logistics, and Inventory Optimization
- Self-Built Cath Lab Supply Chain Management Infrastructure using advanced Excel and Google Sheets on zero external budget
- Continuous learning in Sales and Operations Planning (S&OP), multi-echelon inventory control, and supplier performance governance
