

MAHMOUD MOHAMED LOTFY

Healthcare Operations Director | Cath Lab & Medical Supply Chain

Alexandria, Egypt | Open to: Greater Cairo, Sharkia • +20 155 816 6440 • m.m.lotfy.88@gmail.com • linkedin.com/in/mmlotfy

PROFESSIONAL SUMMARY

Healthcare Operations Director with 15+ years of professional experience across healthcare operations, supply chain, procurement, financial management, and business improvement. Led the Cardiac Catheterization Unit at Al-Obour Hospital for over 3 years, managing 90–140 procedures per month (65–70 clinical cases per month; 399 cases in H1 2025; >1,000 cases over 3 years) with full P&L accountability, data-driven management, and administrative oversight of approximately 45 personnel. Delivered +56.3% net profit growth (H1 2025 vs. H1 2024; +37.0% 3-year revenue CAGR) while absorbing more than 70% operational cost inflation. Achieved a record net profit of EGP 2,978,995 in H1 2025. Built and deployed four internal software systems totaling approximately 3,570 development hours (acting as the unit's custom ERP system) with zero external software budget. Maintained zero supply-failure procedure cancellations across 30+ consecutive months. Expert in people management, advanced data analysis, enterprise ERP systems (custom ERP, SAP/ERP workflows), Sales and Operations Planning (S&OP), and systematic cost reduction across 10+ sectors including healthcare, FMCG manufacturing, telecom, enterprise software, and community development.

KEY ACHIEVEMENTS

- Grew unit net profitability by **+56.3%** year-over-year (H1 2025 vs. H1 2024)
- Achieved net profit of **EGP 2,978,995** in H1 2025
- Delivered revenue growth of **+65.5%** (H1 2025 vs. H1 2024)
- Scaled case volume by **+27.1%** (from **314 to 399 cases**, H1 2025 vs. H1 2024) while raising average revenue per case by **+30.2%**
- Achieved **+50%** growth in Private category cases (high-value procedures, H1 2025 vs. H1 2024)
- Absorbed more than 70% operational cost inflation (unit expenditure **+69.9%** driven by **+35%** consumable inflation, **+27.1%** volume, and case complexity) while expanding profitability
- Generated **250% Return on Marketing Investment (ROMI)** on targeted physician referral campaigns
- Identified and quantified **EGP 2.5 million** or more in lost-revenue opportunities from waiting list backlogs and unutilized capacity
- Reduced outstanding balances by **20–30%** through restructured billing and SLA-based collection reviews
- Maintained **100% stock availability** across **3 consecutive fiscal years** within fixed monthly budget
- Reduced emergency purchasing by **40–60%** through a procedure-linked demand forecasting model
- Achieved **zero supply disruptions** and **zero unplanned shutdowns** across **30+ consecutive months**
- Contributed approximately 20% to overall hospital financial stability

SKILLS

- **Operations & Healthcare Management:** Healthcare Operations Management, Cath Lab Operations, Hospital Operations, Unit Leadership, Clinical Workflow Management, Patient Flow Management, Turnaround Time (TAT) Optimization, Operating Room (OR) Scheduling, Capacity Planning, Physician & Clinical Coordination, Equipment Readiness & Preventive Maintenance, Asset Management, Patient Safety, Quality Assurance, Regulatory Compliance, Clinical Governance, Risk Management, Root Cause Analysis (RCA), Stakeholder Management
- **Supply Chain & Medical Procurement:** Supply Chain Management, Medical Consumables (Stents, Balloons, Catheters), Strategic Sourcing, Vendor Management, Supplier Relationship Management (SRM), Demand Planning & Forecasting, Sales and Operations Planning (S&OP), Material Requirements Planning (MRP), Inventory Management & Optimization, Supplier Negotiation, Contract Management, SLA Enforcement, Procure-to-Pay (P2P), Consignment Inventory Management
- **Financial Control & Revenue Cycle:** Full P&L Management, Budget Planning & Cost Control, Cost Reduction, Profitability Analysis, Revenue Cycle Management (RCM), Billing Audit & Charge Reconciliation, Accounts Receivable (AR) Optimization, Working Capital Management, Insurance Claim Tracking, Cash Flow Management, Collection SLAs, ROMI & Financial Modeling
- **Data Analysis, Systems & People Leadership:** People Management, Cross-Functional Collaboration, Team Leadership, Team Management, Data Analysis, Data Analytics, Operational Analytics, Enterprise Resource Planning (ERP), Custom ERP Systems (~3,570 hours), Business Process Re-engineering (BPR), Business Continuity Planning (BCP), Change Management, SAP / ERP Integration Workflows, Warehouse Management Systems (WMS), Lean Operations, Continuous Improvement, Process Optimization, KPI Development & Monitoring, Project Management, Advanced Microsoft Excel, React, Rust, Python

PROFESSIONAL EXPERIENCE

Healthcare Operations & Supply Chain Lead | Cath Lab

January 2023 – April 2026

Al-Obour Hospital — Zagazig, Egypt

Led full operational, financial, and supply chain management of the Cardiac Catheterization Unit processing 90–140 procedures per month. Directly accountable for P&L performance, cross-functional team leadership, vendor management, and uninterrupted daily case execution. Provided administrative oversight for approximately 45 personnel including nursing, surgical nursing, technicians, and physicians.

- Directed daily operations across **90–140 procedures** per month including scheduling, resource allocation, and staff deployment with **100% case readiness** and **zero critical delays**
- Led people management, daily coordination, and performance tracking for a cross-functional team of **5–10 staff** with administrative oversight of approximately 45 unit personnel
- Conducted advanced data analysis, financial variance tracking, and clinical consumption modeling across monthly procedures, driving data-informed operational decisions
- Designed, built, and deployed four custom software systems totaling approximately 3,570 development hours (Cash Management, Inventory Management, Medical Reports, and Nursing KPI systems) functioning as an integrated enterprise ERP system with zero external budget
- Bridged clinical priorities and administrative decisions by translating physician case requirements into procurement orders, staffing plans, and compliance actions same day; coordinated directly with interventional cardiologists without formal medical background
- Approved consumable selection for every case based on clinical protocol, patient profile, and quarterly budget targets
- Owned full unit P&L, prepared monthly financial reports, tracked costs against budget weekly, and delivered systematic cost reduction and spend efficiency
- Ran the complete revenue cycle end-to-end including case billing, insurance claim submission, payment follow-up, and settlement within defined SLAs
- Restructured the billing follow-up process and introduced weekly collection reviews, cutting outstanding balances by **20–30%**
- Held unit costs below budget every quarter through detailed expense tracking and early identification of cost overruns
- Achieved **+56.3%** year-over-year net profit growth despite more than 70% cost inflation
- Contributed approximately 20% to overall hospital financial stability
- Institutionalized strict governance reforms: restructured recovery room custody controls (capping unit stock to 12 patients) and introduced dedicated in-OR emergency supply carts to prevent leakage and eliminate OR interruptions
- Managed high-value medical consumables including stents, balloons, guide wires, and catheters while maintaining **100% stock availability** within monthly budget
- Built a procedure-linked demand forecasting model mapping monthly case schedules to consumable requirements, reducing emergency purchasing by **40–60%**
- Screened every procurement decision against three criteria before sign-off: unit cost versus benchmark, clinical suitability confirmed by lead physician, and regulatory compliance clearance
- Introduced quarterly vendor performance reviews covering delivery lead time, defect rate, and pricing compliance
- Maintained **zero supply disruptions** and **zero supply-failure procedure cancellations** for **30+ consecutive months**
- Scheduled monthly preventive maintenance for all Cath Lab equipment and held direct service contracts with **3 key vendors**, keeping the lab at **100% readiness** with **zero unplanned shutdowns**
- Implemented a **weekly 10-point readiness checklist** and negotiated a **1 Hour MAX** emergency response SLA with the primary imaging equipment vendor

Accountant & Unit Coordinator | Cardiac Catheterization Unit

October 2019 – January 2023

Al-Obour Hospital — Zagazig, Egypt

Managed Cath Lab front-desk admissions, patient intake ticketing, billing, point-of-service cash collections, and unit treasury. Coordinated consultant procedure scheduling and inter-departmental patient flow with CCU and Operating Theatres, auditing vendor invoices prior to promotion to Operations Lead.

Customer Care Manager

September 2018 – July 2019

ClinPrime — Healthcare Software

- Managed support and escalation handling for **30+ hospital clients** on a healthcare operations and clinical software platform
- Resolved software and operational workflow issues within SLA windows, driving average ticket resolution time from **48 hours down to 24 hours** within the first 6 months

Stores & Factory Manager

2016 – 2017

Verona Sweets Factory

- Managed stores, warehouse inventory, material requirements planning (MRP), and factory operations in an FMCG and manufacturing environment
- Developed hands-on experience in supply chain, warehouse logistics, material flow, and production supply management

2015 – 2016

- Handled systematic data analysis, information processing, and database record verification

2011 – 2012

- Progressed from Customer Service Representative to ADSL Technical Support to Team Lead
- Developed early team leadership and people management experience in the telecom sector

Media Production Professional | Freelance

2014 – 2019

Television, Commercial & Film Production

Roles: Assistant Production Manager, Location Manager, Assistant Director

Productions: Cairo Festival City, Huawei G8, Sudocrem, Clear Challenge, Jumia, Vodafone, Qomrah 2, El Mara3y, television productions, promotional productions

- Developed practical understanding of production environments, locations, crews, people movement, coordination, timing, production logistics, and real-world execution
- Managed people coordination, logistics scheduling, location management, vendor oversight, and timing across fast-paced production sets

Co-Founder & COO

2013 – 2014

Share Events & Marketing Services

- Co-founded and operated an events and marketing services company, managing operational delivery and client execution

Co-Founder

2013 – 2014

TEDx Zagazig

- Co-founded TEDx Zagazig, building an organization and leading 50+ volunteers and coordinators

Organizer | PR Head

2011

Zagazig University Vascular Surgery Conference

- Organized the 7th Annual Conference of the Zagazig University Vascular Surgery Unit, Faculty of Medicine
- Responsibilities included organization, public relations, communication, and coordination

Organizer

2012

Cairo Derma International Conference

- Organized an international medical conference at Semiramis Hotel, Tahrir, Cairo, managing registration, logistics, and vendor coordination
- Responsibilities included organization, logistics, and coordination

Other Events and Conferences

- 1st and 2nd Zagazig University Job Fairs Co-Founder and PR Manager (2,000+ attendees, 30+ employers)
- Conference of the Egyptian Association of America Organizer (2012)
- Environmental Festival Closing Ceremony Organizer
- Organized 20+ conferences, seminars, and meetings across medical, academic, community, and professional domains

Other Leadership Experiences

- Founder & CEO — Share Human & Community Development (2017–2020)
- Co-Founder — Karmasha (2015–2016)
- Dean Office Director — Higher Institute of Engineering and Technology (2014)
- Application Support Consultant — Arabtech Software (2012)
- Founder & Creator — Frobe (E-commerce) (2022–2023)
- Head of Public Relations — SIFE Organization (Enactus)

EDUCATION

B.Sc. Commerce — Accounting | Zagazig University, Egypt | May 2010

LANGUAGES

Arabic: Native / Full Professional Proficiency • English: Full Professional Proficiency (reading, writing, reporting)

TOOLS AND TECHNOLOGIES

- Advanced Microsoft Excel | Google Sheets | React | Rust | Python | Visual Studio Code | Enterprise ERP Workflows | SAP / ERP Concepts | WMS & MRP Systems | Barcode Tracking Systems
- Applied to build operational dashboards, inventory tracking systems, SLA performance reporting tools, internal unit management platforms, and **4 custom software applications**.

PROFESSIONAL DEVELOPMENT

- Healthcare Operations Leadership & Hospital Administration (Self-directed research and executive best practices)
- Self-Directed Study in Healthcare Financial Management, Revenue Cycle Optimization, and Medical Supply Chain Strategy
- Self-Built the Cath Lab full management ERP infrastructure using advanced Excel and Google Sheets on **zero external software budget**
- Hands-on expertise in interventional cardiology consumables developed through 5+ years of direct case involvement alongside cardiologists
- Continuous professional development in data analysis, S&OP, multi-echelon inventory control, and people management
