

MAHMOUD MOHAMED LOTFY

Healthcare Operations Director | Cath Lab Operations | Hospital Operations Management

Alexandria, Egypt | Open to: Greater Cairo, Sharkia • +20 155 816 6440 • m.m.lotfy.88@gmail.com • linkedin.com/in/mmlotfy

PROFESSIONAL SUMMARY

Healthcare Operations Director with 15+ years of professional experience across healthcare operations, hospital administration, financial management, medical supply chain, and digital transformation, including 5+ years in the Cardiac Catheterization Unit at Al-Obour Hospital (3+ years as unit lead). Managed 90–140 procedures per month (averaging 65–70 complex clinical cases/month; 399 audited cases in H1 2025) with approximately 100% operational readiness and zero critical delays across 30+ consecutive months. Delivered +56.3% year-over-year net profitability growth while absorbing 70%+ operational cost inflation (unit expenditure +69.9%). Provided people management and administrative oversight for approximately 45 personnel including nursing, surgical nursing, technicians, and physicians. Proven capability in advanced data analysis, custom hospital ERP development, clinical consumable competence, objective KPI frameworks, and systematic cost reduction. Promoted from Cath Lab Accountant to Operations Lead after demonstrating operational leadership, restructuring unit management infrastructure from scratch, and closing critical governance and revenue leakage gaps.

KEY ACHIEVEMENTS

- Managed **90–140 procedures** per month (averaging 65–70 complex cases/month; **399 audited cases** in H1 2025) with **~100% operational readiness**
- Delivered **+56.3%** year-over-year net profitability growth (H1 2025 vs. H1 2024) with **EGP 2,978,995** net profit and **+37.0%** 3-year revenue CAGR
- Maintained **zero supply disruptions, zero unplanned shutdowns**, and **100% equipment readiness** across **30+ consecutive months**
- Led administrative and operational restructuring: re-linked Cath Lab to hospital institutional governance, instituted recovery room custody controls, and separated OR supply carts to eliminate leakage and delays
- Built deep clinical consumable competence across interventional cardiology consumables (stents, balloons, guide wires, catheters), enabling seamless pre-procedure coordination with lead cardiologists
- Built and deployed a comprehensive Nursing KPI Monitoring System over **~2,100 development hours** to replace subjective reviews with objective, transparent metrics
- Built internal custom desktop applications including Cash Management Application (React and Rust) and Medical Reports Application alongside online Inventory Management, acting as the unit's custom ERP system
- Negotiated a **1 Hour MAX** emergency response SLA with primary imaging vendor, keeping Cath Lab at **100% readiness**
- Provided people management and administrative oversight for **approximately 45 personnel**; directed cross-functional team of **5–10 staff** through structured coordination and weekly reviews
- Restructured billing and collection workflows, reducing outstanding accounts receivable balances by **20–30%**

SKILLS

- Operations & Healthcare Management:** Healthcare Operations Management, Cath Lab Operations, Hospital Operations, Unit Leadership, People Management, Team Leadership, Team Management, Clinical Workflow Management, Patient Flow Management, Turnaround Time (TAT) Optimization, Operating Room (OR) Scheduling, Capacity Utilization, Physician and Clinical Coordination, Patient Safety, Clinical Governance, Healthcare Accreditation Standards (GAHAR / JCI Principles), Clinical Audit Readiness, Quality Assurance, Regulatory Compliance, Stakeholder Management
- Financial & P&L Leadership:** Full P&L Management, Budget Planning, Financial Reporting, Cost Reduction, Cost Control, Profitability Analysis, Revenue Cycle Management (RCM), Case Billing, Collection SLAs, Accounts Receivable Optimization, Working Capital Management, Charge Capture & Revenue Leakage Prevention, Spend Analytics
- Data Analysis & Digital Systems:** Data Analysis, Data Analytics, Operational Analytics, KPI Development and Monitoring, Enterprise Resource Planning (ERP), Custom ERP Systems (~3,570 hours), Management Information Systems (MIS), Business Continuity Planning (BCP), Change Management, Advanced Microsoft Excel, React & Rust Desktop Applications, Barcode Systems, Process Automation
- Equipment, Asset & Supply Chain:** Asset Management, Equipment Readiness, Preventive Maintenance, 100% Operational Readiness, SLA Management, Emergency Response Coordination, Vendor Management, Medical Supply Chain Management, Sterile Processing Logistics, Infection Control Adherence, Continuous Improvement, Lean Operations, Project Management

PROFESSIONAL EXPERIENCE

Healthcare Operations and Supply Chain Lead | Cath Lab

January 2023 – April 2026

Al-Obour Hospital - Zagazig, Egypt

Led full operational management of the Cardiac Catheterization Unit processing 90–140 procedures per month. Directly accountable for P&L performance, cross-functional team leadership, and uninterrupted daily case execution. Provided administrative oversight for approximately 45 personnel including nursing, surgical nursing, technicians, and physicians.

- Directed daily clinical operations across **90–140 procedures** per month including scheduling, resource allocation, and staff deployment with **~100% case readiness** and **zero critical delays**
- Led people management, daily scheduling, and performance reviews for a dedicated cross-functional team of **5–10 staff** with administrative oversight of **approximately 45 personnel**
- Conducted advanced data analysis and operational reporting across procedural case mix, capacity utilization, and physician volumes to drive continuous improvement
- Built and deployed four custom digital systems totaling **~3,570 development hours** (Nursing KPI System, Cash Management Application, Online Inventory System, and Medical Reports) functioning as the unit's custom ERP solution on **zero software budget**
- Coordinated clinical case schedules, emergency case turnarounds, and room sterilization cycles to ensure seamless transitions between complex interventional procedures
- Bridged clinical priorities and administrative decisions by translating physician case requirements into operational plans and compliance actions same day
- Owned full unit P&L, prepared monthly financial statements, tracked departmental costs against budget weekly, and presented performance reviews to hospital executive management
- Restructured the billing follow-up process and introduced weekly collection reviews, cutting outstanding balances by **20–30%**
- Held unit costs below budget every quarter through detailed expense tracking and early identification of cost overruns, absorbing **70%+** inflation and achieving systematic cost reduction
- Achieved **+56.3%** year-over-year net profit growth (**EGP 2,978,995** in H1 2025) and contributed approximately 20% to overall hospital revenue stability
- Built and deployed a comprehensive Nursing KPI Monitoring System over **~2,100 development hours** to move performance evaluation from subjective impressions to structured, measurable data
- Institutionalized strict governance reforms: restructured recovery room custody controls (capping unit stock to 12 patients) and introduced dedicated in-OR emergency supply carts to prevent leakage and eliminate OR interruptions
- Maintained deep clinical consumable competence across interventional cardiology consumables (stents, balloons, guide wires, catheters), enabling precise case preparation and seamless coordination with cardiologists
- Re-linked the Cath Lab unit to the hospital institutional framework after years of administrative separation, closing financial and governance gaps
- Scheduled monthly preventive maintenance for all Cath Lab equipment and held direct service contracts with **3 key vendors**, keeping the lab at **100% readiness** with **zero unplanned shutdowns**
- Implemented a **weekly 10-point readiness checklist** and negotiated a **1 Hour MAX** emergency response SLA with the primary imaging equipment vendor
- Directed integrated unit functions spanning procurement, inventory planning, demand forecasting, and vendor management

Accountant & Unit Coordinator | Cardiac Catheterization Unit

October 2019 – January 2023

Al-Obour Hospital - Zagazig, Egypt

Managed Cath Lab front-desk admissions, patient intake ticketing, billing, point-of-service cash collections, and unit treasury.
